Statement of Intent: It is our intent to develop a CASA/GAL program that operates in compliance with National CASA Association *Standards for Local CASA/GAL Programs*. Upon National CASA's acceptance of this statement of intent, we understand that we will have four months to complete our application for Provisional Membership with the National CASA Association. During that time, we have permission to use the CASA name in the development of a mission statement, bylaws, articles of incorporation and other documents necessary in the development of a CASA/GAL program. If the application has not been submitted within the four month period, we will lose the ability to use the CASA name and trademarks in moving forward with the development of a program in our community.

I have reviewed the provisions of the Statement of Intent and agree to abide by them.
